

MECHANICAL ENGINEERS & CONTRACTORS (MEC) HVAC & Refrigeration Division

HVAC & Refrigeration Contracting Division

We are one of the leading Engineering and Contracting Organization in Jordan and the Middle East Area, established since 1968 and still progressing, specialized in Refrigeration, Air Conditioning & Heating Works for large buildings, Hotels, Hospitals, Bank & Food Industry Projects, such as Cold Stores, Slaughter Houses, Dairy Plants & Ice Cream Factories.

We have been in continuous progress since the founding of our firm, providing the very good quality of materials, workmanship and after-service maintenance for the projects performed.

Our staff of this division today includes about 326 permanent personnel. Those are expert engineers, high quality technicians and administration in our offices, stores, workshops and duct factory which built on 11,000 square meters.

Our turn-over per year in this field is around 14 million US\$

We have executed more than 80 large projects in Jordan and the near-by Arab Countries, Such As :-

- Complete Turnkey cold storage Projects
- Complete HVAC-Mechanical Works For many Hospitals.
- Complete HVAC-Mechanical Works For many large buildings, high raise buildings, insurance companies, banks, residence.

- Complete refrigeration works for food industry projects, slaughterhouses, ice cream factories, dairy plants, ice factories.
- Complete HVAC-Mechanical works for industrial factories, as plastic factories, pipe factories, textile factories.

We are proud that we executed about 40% of large Air Conditioning Projects, 85% of Industrial & Commercial Refrigeration Projects & 25% of Heating Projects.

We will be glad to supply a list of these projects with completion certificates on request.
