

MECHANICAL ENGINEERS & CONTRACTORS (MEC)

MEC is one of the most leading Electro-Mechanical Engineering, Contracting, Industrial & Trading organization in Jordan & the Middle East, established since 1968 and still progressing.

During the long years of experience, MEC developed the methods of implementing projects. Today, MEC reached the best ways which serve the customers & projects, And build the strong confidence with our customers; where MEC currently execute the biggest projects by using the best plans, ideas & methods through our trained staff which contain engineers, supervisors, technicians and assistants trained for implementation of such huge projects to ensure the rapid delivery of project and focusing for the safety priorities that which give our projects the advantage of success

MEC executed directly with clients or subcontractor or in cooperation with many international contracting companies more than 180 large projects of different types in Jordan and the near-by Arab countries such as :-

- Power Generation/Stations.
- Gas Turbine Plants
- Water Treatment Plants.
- Sewage Treatment Plants.
- Fuel Tanks, Spherical Tanks, Industrial Tanks & all types of tanks & vessels
- Compressed Air Systems Plants.
- Hot & Steam Boilers Plants.
- Petrochemical Plants
- Pipeline Projects (Gas, Oil, Water)
- Refineries Services.

- Potash Plants.
- Cement Factories.
- Fertilizer Plants.
- Mining Equipment and Plants.
- Chemical Industry Plants.
- Rendering Plants.
- Steel Structures.
- Packaging Factories.
- Fire Fighting & Fire Alarm Systems.
- Slaughterhouses.
- Cold Stores.
- Ice Factories.
- Dairy Plants.
- Paper Factories.
- Operation & Mainten. Plants Services
- And Many others Industrial Projects.

UNIVERSAL STEEL FABRICATION FACTORY (U.S. FABRICATORS)

MEC build the Universal Steel Fabrication Factory "U.S FABRICATORS" to fulfill the expanding industrial projects in the area. The factory is equipped with modern equipment coupled with highly trained engineers and technicians.

The area of the factory is nearly 10,500m², the covered area is nearly 6,200m² & the production rate is est. to be 10,000Ton/year for 8 working hours per day.

U.S. FABRICATORS fabricates Equipment & Part for Cement Plants, Chemicals, Petrochemicals, Power Generation, Refineries, Mining, Food & Pharmaceuticals Industry, Water & Sewage Treatment Plants, Health & Cleaning Equipment...etc.

U.S. FABRICATORS Equipped to Fabricate & Manufacturing Cyclones & Silos, Pipes & Pipelines Fabrication (Gas, Oil & Water), Prefabrications services, Steel Structural Works, Storage Tanks, Industrial Vessels/Tanks, Pressure Vessels, Skids, Barges For Industrial Plants, Water Treatment Systems, Sewage Treatment Equipment, Heat Exchangers, Crystallizers, Steel Bridges Sections, Ducts, Columns, Agitators, Conveyor Belts, Chimneys for Power Generation Plants & Industrial Factories & big Pressure Boilers, Headers, Overhauling & Maintenance services for turbines, pumps, compressors, dryers...etc.

MEC TRADING & SUPPLYING

MEC representing more than (45) well-known international electro-mechanical, refrigeration, rotating & handling Equipment instruments, controls & NDT Equipments manufacturers from USA, Canada, Japan, Korea, Germany, Italy, France, Spain, Middle East...etc. that which are supporting MEC to be one of the biggest establishment & stockiest in Jordan & Middle East having more than 4000 Electro-Mechanical items of equipment & spares available in our stock ready for immediate delivery to all our clients in Jordan & Middle East.

Our stores and showrooms of 6,500m² are fully equipped with advanced storage systems and managed by qualified people together with most modern handling Forklift, Cranes, and Trucks to deliver all our clients their requirements to their sites

POWER GENERATION SERVICES

MEC cooperating with many international leading companies in the field of construction, operation and maintenance services for the power plant and industrial facilities

MEC have long experience for construction, operation & maintenance services for various types of power generating units including thermal, combined cycle/co-generation and diesel.

These services include the construction, fabrication/prefabrication work, engineering, manpower supply, Operation and maintenance of power plant. Gas turbine components repair for GE frame-5,6,7, Technical advisory service in field of O&M of power plants

MAINTENANCE SERVICES

MEC have the most leading maintenance groups/teams in Jordan ready to doing all electro-mechanical service maintenance for our projects and for most of the big projects & industrial activities

Our maintenance teams are qualified to maintain all the rotating, handling, HVAC equipments...etc. in our workshops & in sites

Universal Steel Fabrication Factory (U.S. FABRICATORS)

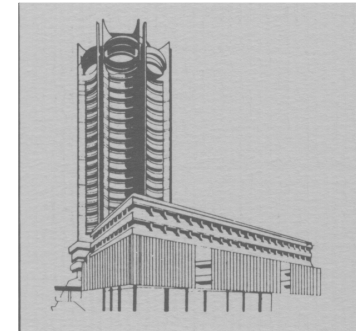

MEC Warehouses

OTHER DIVISIONS

- MEC HVAC & Industrial Refrigeration
- MEC Insulation & Water Proofing
- MEC (NDT) Non-Destructive Testing Equip.
- MEC Medical & Laboratory Equipment
- MEC Electrical, Instrumentation & Controls
- MEC Bearing, Seals & Industrial Chemicals
- MEC Handling Equipment
